

**Today I am going to Dance Class at
Canada's National Ballet School.
For dance class, I can wear my NBS T-Shirt
and comfortable bottoms I can move in.
I know that I will have to change into my
indoor shoes before I enter the dance studio.**

**My dance teacher
is Ms. Lehan**

**When I arrive at
Canada's National Ballet school,
I will sign in at front reception.**

**Then I will take the elevator
down to the Concourse Level
or I can take one flight of stairs.**

When I arrive at Concourse Level, I can sit or stand as I wait outside the studio until my dance teacher comes to welcome me into the class.

When it is time for class, I will go into the studio with my classmates. My dance buddy will help me find my spot in the circle.

The dance studio is a big open space with tall mirrors and ballet barres on the walls. I understand that those are for the older dancers and that I should not touch them.

There is a big grand piano in the corner where the musician for my class will sit and play the music. I understand that the musician needs their space to play so I will not go past the blue taped lines on the floor around the piano.

We will start class with our welcome circle. This is when I get to see what we will be doing in class

My dance teacher will guide me to learn new dance movements with my dance buddy. During class, I will listen carefully, wait my turn and have fun!

At the end of dance class we will dance our goodbye dance all together and my dance buddy will bring me to meet my grownup in the hallway. I know I will get to see everyone again next week.
